Office Action

1. This application is in condition for allowance except for the following formal matters:

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Figures 2a, 2b, 3a and 3b do not have element numbers corresponding to each element in each figure. Element numbers should be included in the specification for complete understanding of the invention. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

3. The abstract of the disclosure is objected to because it is not 150 words or less.

Correction is required. See MPEP § 608.01(b).

Art Unit: 2665

Claim Objections

4. Claims 2-4, 6-8, 10-12 are objected to because of the following informalities: the acronyms, IC and DC, should be replaced with the actual meanings. Appropriate correction is required.

5. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
